Jahidul Islam

Laravel Developer

PROJECT EXPERIENCE

Asharkandi Union Porishod Project 2024

I have recently completed a project for Asharkandi Union Porishod, where I played a pivotal role in developing and modifying web services directly related to the requirements of the union porishod. This experience underscores my ability to deliver tailored solutions in a local context, showcasing my proficiency in adapting and customizing projects to meet specific client needs.

Lead Developer Aug-2023

Genius Softwares I Bangladesh

Led a high-impact team in swiftly developing 'Learning Campus,' a pioneering school management software using Laravel. Despite a tight two-month deadline, we delivered an intuitive and robust solution, enhancing my leadership, project management, and technical skills. My pivotal role in 'Learning Campus' creation has greatly streamlined school operations

PowerCourses I Dubai 2023

Collaborating with a foreign company on the LMS PowerCourses project, a comprehensive Laravel-based school management system. I specialize in content customization to meet specific client requirements, showcasing adaptability and fine-tuned skills in an international setting.

MediSync Plus 2023

Engaged in the development of 'MediSync Plus,' a Laravel-based hospital management system. This project involves designing and optimizing a software solution tailored to streamline hospital operations, emphasizing my self-initiated innovation and commitment to effective healthcare management.

TilBeauty (E-Commerce) 2024

Contributed to 'TilBeauty,' an e-commerce website built on PHP. Collaborated on various aspects of the platform, including front-end and back-end development, ensuring seamless functionality and enhancing the user experience. This experience honed my PHP development skills and deepened my understanding of e-commerce systems.

CupidConnect (Matrimonial) 2022

Played a part in 'CupidConnect,' a matchmaking website. Worked on improving the site, managing user data, and making it more user-friendly. This experience helped me sharpen my skills in web development and data management while contributing to meaningful connections.

In addition to the mentioned projects, I have actively contributed to and developed various other projects, showcasing a diverse skill set and a proven track record in delivering successful outcomes across multiple domains.
